AT BEAUMONT

What our staff have to say about our school...

When I decided to change my career and become a teacher, I didn't really know what to expect. From my first day at Beaumont I felt welcome and that staff and students alike wanted me to succeed. Beaumont students are friendly, well behaved and want to do well. The feeling of community and pride that I sensed when I first arrived has only grown stronger as I have become a part of that community. The day to day support and encouragement I receive from my department has been a major factor in my succeeding as a new teacher. The senior leadership team is incredibly supportive, accessible and passionate about providing an environment where students can thrive. The mutual and respectful relationships that exist between staff and students make me proud to be a part of the Beaumont community. I have no regrets about becoming a teacher

Ian Laws

Beaumont school is a great place to work and for career development. There are lots of opportunities for training throughout the year. I initially applied as a part time SEN administrator but was offered some additional hours as a teaching assistant. I've had training for my admin role and it has developed since 2015 but I also now have the opportunity to take small groups of students for learning support lessons. The staff at Beaumont are very friendly and welcoming. The staffroom is also a warm and welcoming area and its nice to see lots of different people in there. There are also lots of social gatherings throughout the year where staff from all departments can get to know each other and have a nice time. I have developed strong friendships with people in all different areas of the school. The ESS team are an important part of the functioning of the school and every person is a valued member of this community. I have always felt supported and appreciated in my role within this team and this is evident in the fact that this has been the longest that I have worked in the same organisation.
