Message from Julia Cottee – Chair of Governors

The Wren opened its doors to 73 students in 2015, with the vision that *"Each child, regardless of background, will receive a world-class education and be nurtured, challenged and inspired to aim high"*. We are now the secondary school of choice in West Reading, with places hugely over-subscribed, and with modern high-quality facilities.

The Wren is a free school founded by a parent proposer group (the West Reading Education Network), formed to serve the families of Central West Reading. Reading has consistently been one of the most popular places to move to in recent years, and with hundreds of houses and apartments being built in the town centre, close to future Crossrail links, the demand for school places is growing all the time. However, the only schools actually located in the centre of the town are selective, necessitating many children to travel out to the suburbs, or even beyond the borough, to access secondary school education. Although The Wren is located near to other secondaries, we stand out due to our nurturing ethos, our dynamic curriculum in a 3-year KS3 and transition support from KS2, our high level of curriculum resources, especially for the Arts, and welcome towards young people's diversity, and our enthusiastic and caring staff.

Having experienced such a challenging and rapid journey of expansion, change, burst in popularity and building work over the initial years as a standalone school, we joined Excalibur Academies Trust in 2019, to help us to continue to strive to provide a world-class education to our students, in a collaborative partnership which allows us to draw upon their expertise, whilst still ensuring our unique identity and approach.

We look forward to receiving your application.

About The Wren

The Wren is a thriving and growing 11-18 secondary school based in the heart of the local community. Reading is a vibrant town with a thriving centre sited on the River Thames and River Kennet. A historic market town with many shops and restaurants and fantastic opportunities to explore a huge number of local and regional attractions. The school is situated in West Reading, with easy access to the M4 and excellent rail links to London and across the country.

Our first cohort of Year 7 students arrived in September 2015 and we moved into our state of the art, modern buildings in September 2018. These fantastic buildings provide us with spacious and well-equipped learning environments that inspire our students to continue to strive for excellence. In September 2020, we were delighted to welcome our first Sixth Form cohort.

As a school, we value community cohesion and are proud to be part of the Excalibur Academies Trust and its excellent network of schools. Founded in 2012, EAT is a multi-academy trust that prides itself on a special blend of independence and collaboration. Their vision is to provide an excellent education empowering individuals to thrive and grow within a caring, aspirational and outward looking culture. They believe in investing in staff to ensure they attract and retain talented, dedicated people who are committed to changing children's lives for the better. With a strong track record of raising the achievement of disadvantaged pupils across the trust, it is their mission to promote social mobility and personal fulfilment through the transformative power of education.

Our rich and purposeful curriculum offers a wide mix of academic and practical opportunities. We challenge our students to explore, discover and learn new things, and inspire them to dream and think big. We aim to create independent, creative and confident individuals who are skilled and ready for the world, and resilient to the challenges they might face.

We have an unremitting focus on quality first teaching and learning, with an exceptional staff team who are committed to creating 'Inspirational Classrooms'. We expect and encourage the highest standards of attitude, behaviour and commitment from staff and students alike.

Our students follow a three year Key Stage 3, studying a wide range of subjects to prepare them for Year 9 - a year of choice and decision-making about GCSE subjects and the next stage of their educational journey. All students will have the opportunity to select a personalised combination of subjects that will allow them to reach for success at the end of Key Stage 4 in Year 11. We hope that each student's journey with us continues into our sixth form where we provide a range of qualifications to meet their needs and open up opportunities as they step into the world of work or continue onto further study at university.

'I started working at The Wren in 2016, at the time there were just 88 students and a handful of staff based in a very small number of temporary buildings. For me, being part of creating a school has been an amazing experience – there has literally never been a dull moment as the school is still constantly evolving, bringing moments of pride and challenge in equal measure! The staff here are friendly, helpful, team players and definitely very willing to be hands on. Having recently added 'Sustainability Representative' to my remit, The Wren has definitely proved to be my most interesting finance role!' – **Lorraine, support staff.**

'My favourite thing about working at The Wren is the sense of teamwork that runs through all the departments. You're never alone after a tough day and there is always someone to seek advice from – whether they are in your department or not' – **Simon, teaching staff.**

'I have been fortunate to work at The Wren since 2016. The warm and friendly nature of everyone who works here – makes it a lovely place to work. The support you receive from the Senior Leadership Team and the rest of the staff is second to none. The fact that I can make a contribution to the education of the diversity of the students we have at the Wren gives me satisfaction every day. No two days are the same but it is that variety that makes it so enjoyable' – **Heather, support staff.**

'The Wren is a particularly supportive environment with ample professional development opportunities. As an NQT and now RQT I feel incredibly invested-in and lucky to have been nurtured throughout the early stages of my career. I cannot imagine being surrounded by more passionate people than those at The Wren and I am grateful for the opportunity to continue to develop at this wonderful school' – **Sarah, teaching staff.**

'I have worked for the Wren for 6 years and have enjoyed becoming part of the Wren team. I still look forward to coming to work and feel a sense of belonging. My current job role is Office Manager, which entails dealing with families/carers/students and teachers. Every day is different and you can always expect the unexpected. We work as a team and support each other. I would encourage anyone to come and work at The Wren' – **Lyn, support staff.**

BETTER NEVER STOPS

Performance Development

Excalibur, our Trust, have the right approach to performance management, where in fact the focus is performance development. All staff engage in a Professional Learning & Development Procedure (PLDP) which allows staff to centre goals focused on their professional growth. At The Wren we personalise this process through termly Better Never Stops conversations and we allow staff to work on one goal at a time or parallel goals, whichever they prefer. These conversations are focused upon the member of staff and their successes, barriers and goals for the onward year, or term. These conversations combine one-to-one conversations with collaborative triads, led by an Olevi trained coach from within our staff body. This works separately to performance management, which is based upon professional trust.

Early Careers Teachers

As a school, we fully support the statutory guidance for induction. We work with the Swindon & Wiltshire Teaching School Hub & Ambition Institute to support our early career teachers through a package of localised and centralised training whilst working closely with our Appropriate Body – United Learning at Swindon & Wiltshire Teaching School Hub to ensure this provision is the best it can be. Our induction is rigorous and bespoke, ensuring the support of both an Induction Tutor and Mentor.
