PRINCE REGENT

STREET TRUST

About us

Founded on the principles of the primary curriculum, the Prince Regent Street Trust is a group of six primary schools with a common purpose; through a vision centred on excellence, opportunity and partnership our children receive the educational experience they so richly deserve. The Prince Regent Street Trust is fundamentally one of sustainable school improvement.

At Prince Regent Street Trust, we recognise that every child is a unique individual and that every school serves a unique community. Developing and understanding the vision, values, strategy and culture of each school enables us to work in partnership with each member of the school community to ensure a bespoke, aspirational, effective and sustainable approach to school improvement. Every decision we make is for our children! They are at the heart of everything we do and they influence the decisions we make. Our staff and leaders work tirelessly to ensure every child receives the educational experience, and opportunities that they so richly deserve; as a result they acquire the rich foundations which prepare them for future learning.

We strongly believe that every child has the right to the highest quality education. Successful schools and their leaders hold the responsibility to work alongside other schools to support improvement. Leaders have a collective responsibility for improving the whole system for mutual benefit. We are in such a privileged position as we have the power to influence; and to change lives for the better. A culture of partnership working, accessing quality opportunities and striving for educational excellence is well embedded and is at the heart of all we do.

It is important that our Trust is an organisation of choice and that all stakeholders are proud to be part of it. Our Trust recognises and rewards the efforts and commitment of its staff ensuring they are valued and appreciated. Promoting and establishing an appropriate work-life balance empowers staff. We need to invest in our staff so that they are fully-equipped to succeed.

Positive, trusting relationships are key to the success of any trust. Our Trust central team invests time in getting to know and gaining the trust of all members of staff to create a culture of support, challenge and accountability.

At Prince Regent Street Trust, we:

- have very high expectations for all
- believe in a strong focus on teaching and learning
- believe in schools keeping their own unique identity. This is promoted and celebrated and enables us to stand out amongst other organisations
- believe in establishing and maintaining strong partnerships (LA, other trusts)
- are inclusive; we support all pupils, including those with SEN and vulnerable pupils and their families

All of our schools are good and outstanding, yet are very different in so many ways. We feel that having such a variety of different sizes and school contexts enhances our capacity to support and develop other schools, impacting across the Tees Valley and northern regions.

"I felt proud to get the headteacher award and the medal and trophy are now in my bedroom."

"I've loved today because I got to see friends from other schools, and I really enjoyed the maths games."

Trust Objectives and Activities

We have a very successful primary ethos which enables all pupils to maximise their potential whilst our individual schools retain their educational autonomy. We have a common aim to inspire the imaginations of children in our care; to support them to develop in ways which stand them in good stead for their future lives and responsibilities as individuals, employees and citizens.

Our desire to share our expertise is underpinned by three key principles: '**Excellence, Opportunity and Partnerships**'. The principles have heavily influenced our vision, values, strategy and culture. As a trust we recognise that every school is different, and, as a result, their needs are different. The level of educational autonomy given to each school is an important distinction; there is no one-size-fits-all at Prince Regent Street Trust and each school's unique identity is promoted and celebrated. We empower schools to go further via a high level of strategic challenge and accountability, dedicated expertise and resources, and extensive opportunities for collaboration and partnership working. Through this model we enable headteachers, senior leaders and teachers to do what they do best: provide the highest quality teaching and learning experiences for the children in their care.

Excellence

Our school improvement offer, focused on the core components of effective leadership; teaching, learning and assessment, has excellence at its heart and strives to ensure that pupils are exposed to a unique educational journey and that our leaders and staff are effectively equipped to provide this. As school leaders we have a collective responsibility to strengthen an educational system which provides challenge, support and accountability so that pupils achieve the best possible outcomes and are prepared to effectively contribute to society.

Partnership

We firmly believe that effective partnerships between all members of the school community are vital for pupils' and staff's success. Forging strong, trusting relationships between our Trust schools, our partner schools and collaboration with a wider community of schools both locally and nationally, ensures that experiences and expertise are shared and drive improvement. Partnerships built on support and challenge are key to raising standards and ensure the best possible education and outcomes for pupils. Education is a fast-paced, ever-changing world; partnerships, networking and support are integral parts of navigating this successfully. The wellbeing of our Trust community is a key focus at Prince Regent Street Trust and we work in partnership with a range of organisations so our staff benefit both personally and professionally. A strategic, co-ordinated approach, grounded in and supported by research, is essential for school improvement. Working in partnership with locally and nationally recognised organisations (for example, the Confederation of School Trusts (CST) and the Education Endowment Foundation (EEF)) has had a direct impact on our organisation with recommended initiatives and approaches positively impacting on the quality of education in our schools. From a school improvement perspective, it is vital to have this comprehensive overview of the support available; to signpost colleagues to targeted opportunities and experiences, and to recruit expertise where available.

Building credible relationships, locally and nationally, recognising strengths, learning from one another and taking ownership of, and demonstrating trust values are key.

Schools in our Trust

We are family of six primary schools across Stockton on Tees and Middlesbrough in Teesside. We hope to grow further throughout the region aiming for between 10 and 16 primaries, having over 3000 pupils in order to access additional DFE Capital funds and ensuring that all Heads can regularly meet around a board table, share best practise and collaborate. It is also essential the members of the central team maintain close relationships and are knowledgeable of each school to provide the continued level of services which are currently on offer.

Our Schools

'During my time working for the Trust, I have had so many opportunities to develop myself professionally. I am just about to commence my NPQH qualification with support from the Trust'.

'I enjoy having the opportunity to talk to teachers from the different schools in the Trust which has supported me with my subject leadership'.

'I love the way that each individual school in the Trust is so different and that is celebrated and encouraged.'
