### OUTLINE OF POST:

This role reports to a Senior Administrator who is responsible for their assigned administrative pod. The responsibilities of an Administrator are to assist the area to which they are deployed through the provision of administrative support, or to complete a specifically assigned role within the School Office. The role description is deliberately broad and flexible, so that an Administrator can support different areas of the School in line with operational needs, such as (but not limited to): the Sixth Form Team, the School Office, Academic and Pastoral Leadership, Departmental support and Attendance as allocated. Roles completed within these placements will be varied and Administrators will be supported in developing their skills and knowledge in order to be able to complete a number of roles.

Within our team of Administrators our model is one which retains flexibility to assign each Administrator to an area of particular responsibility which can change by mutual agreement over the medium term. In order to balance workload across the administration function, an Administrator may, from time to time, be assigned additional tasks in other areas by their line manager.

In the event of a need for short-term adjustment in staffing, an Administrator may be temporarily re-deployed to a different area: in this instance overall line management responsibilities will not change, however they would be expected to work under day-to-day instruction of the area lead or individual leader.
