

“As a teacher you can do more, not in terms of workload, but in terms of all the things that are exciting about teaching. The parents and boys are hugely supportive of projects and ideas which expand the curriculum beyond rote learning and exam prep. This is my fourth School in over a decade of teaching and the first one where I feel my son would thrive and find his hidden talents!”

Mr. Ajagbonna,
Senior Deputy Head

HITCHIN BOYS' SCHOOL
An Academy Trust

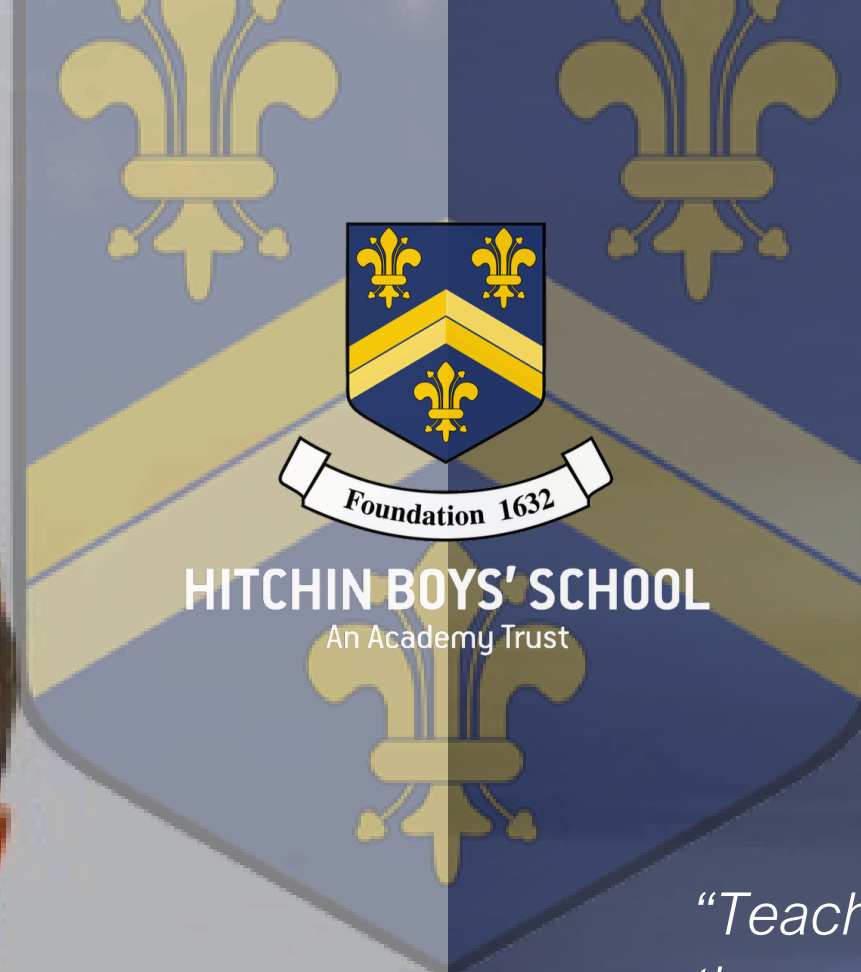

"Hitchin Boys is a fantastic place to work. The students are polite, receptive, and respectful. They enjoy learning, thrive in a positive environment, and respond well to high expectations. Colleagues are a joy to work with, collaborative, supportive, and always willing to share best practice. Leadership is proactive and understanding, consistently approaching issues from the perspective of staff and acting with empathy and foresight. It is a genuinely supportive and rewarding place to be."

Mrs Goni,
Teacher
(Maths)

"I really enjoy working at Hitchin Boys School because it is a supportive and welcoming community. I feel listened to and valued, and that makes a real difference. It's a place where both staff and students are encouraged to thrive"

Mrs Mills,
Assistant SENDCo

"Teaching at Hitchin Boys' School is truly rewarding. I have the autonomy to bring my own expertise to lessons, yet I'm fully supported - not just by fantastic department leads, but also through forward-thinking teaching and learning initiatives from the SLT. This strong support system allows me to innovate, particularly when giving our brilliantly enthusiastic students authentic cultural experiences through things like MFL trips. Crucially, the school is a genuinely diverse environment where celebrating difference is at the core of our ethos, allowing me to be my complete, authentic self in the classroom."

Mr. Rule,
Teacher
(Modern Foreign Languages)
