

GEOGRAPHY DEPARTMENT

The Geography Department at Teign School is an enthusiastic, successful department.

At Key Stage 3 Geography is taught to Years 7, 8 and 9 in mixed ability teaching groups. Each pupil at Key Stage 3 receives 3 x 60 minute lessons over two weeks. During Key Stage 3 we aim for each pupil to experience Geography outside of the classroom and strongly support fieldwork throughout Key Stage 3.

At Key Stage 4 Geography is a very popular subject with approximately three groups in Years 10 and 11. We again support fieldwork trips and giving all of our Geography students enrichment opportunities.

At Key Stage 5 Geography is again a popular subject with regularly large numbers of Post-16 Geographer students.

The Department classrooms are located downstairs in one of our blocks, with a Department office located within this area. As with all curriculum areas, there are designated weekly, half termly meetings scheduled, as well as collaborating with other Geography teachers across Education South West, both through allocated after-school sessions and INSET days.
