Reed's School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.

An Introduction to Reed's School

Reed's School is a leading HMC independent day and boarding school, providing an education for around 850 pupils. Currently, we accept boys between the ages of 11 and 18 years, with girls joining in the Sixth Form. From September 2027 we will be moving to become fully co-educational by accepting girls into Year 7. Reed's is predominantly a day school with approximately 10% of pupils boarding, spread throughout the year groups.

Although primarily day, the School benefits from all the facilities of a boarding school which provide the welcoming community feel that embodies our ethos and character.

Reed's is well-known for its innovative approach to learning, outstanding Arts and Music provision, and national and world-class Sports teams.

Our staff are recognised for their inspirational and dynamic approach to learning. The vast majority of pupils attend their first-choice universities, with Russell Group universities being the most popular destinations. In the latest ISI Inspection (Jan 2025) Reed's were judged to have met all required standards and inspectors acknowledged a rare 'significant strength' for our use of feedback to raise academic standards.

Situated in over forty acres of countryside in Cobham, Surrey, Reed's benefits from excellent transport links by rail, road and air. The School is a ten-minute walk to Oxshott Station, with a forty-minute journey into Central London while the A3 is a four-minute drive away with excellent links to Gatwick and Heathrow airport and the M25.

The History of Reed's School

Reed's School was established in 1813 by the prominent philanthropist and social reformer Reverend Dr Andrew Reed as a school for orphaned children. His belief that philanthropy and education have the power to transform the lives of children remains central to the ethos of Reed's.

Through our Foundation the School continues to offer bursaries to approximately 10% of the pupils who have lost the support of one or both parents, be in need of pastoral care and financial assistance.

Although much has changed since the School was founded, our values-driven approach to education has remained the same.

Through our core values of Integrity, Compassion, Curiosity, Resilience, Responsibility and Independence we are able to create a dynamic, exciting, and friendly environment where our pupils and staff thrive.

Teaching Staff Benefits

Reed's School enjoys notable demand for places and is backed by strong financial planning that enables all departments to be very well resourced.

All teachers are supported fully in their professional development: those in the early stages of their careers are supported through PGCE and ECT qualifications; those with experience have the opportunity to develop their pedagogical and leadership skills through courses such as ISQAM (HMC), BSA, NPQML and NPQSL. The School also supports members of staff who wish to study for other qualifications such as Master's degrees and sports coaching qualifications.

To enable us to make any reasonable adjustments, please let us know when you submit your application whether you have any special requirements.

The Design & Technology Department

Product Design are options at GCSE and A level within the school. At both levels, pupils currently specialise in woods, metals and polymers to realise their designs. The subject is compulsory in years 7 and 8. It is optional in year 9, however, it is typically chosen by the majority of the year group.

The department is actively involved in the Year 9 STEM Curriculum lessons under the FutureTech umbrella and actively supports a variety of extra-curricular initiatives within the School and with outside agencies. These include STEM clubs, providing students with engineering and problem-solving challenges. The department regularly competes in external competitions for example Surrey Satro and Samsung Solve for Tomorrow.

The department occupies an impressive, purpose-built facility which was opened in 2012 and is still a flagship building of the school. It comprises two large multi-material workshops, a machine area, prep room, full ICT suite and electronics lab.

There are currently three full-time members of teaching staff in the department and one technician who work closely together in a large, shared office in the heart of the building.

Ideally, the successful candidate will be confident and experienced in the workshop environment and keen to become involved in all aspects of the department. This role will report to the SLT link member for DT.
