

Welcome to the Marlborough Science Academy Specialised Learning Faculty

Welcome to the Specialised Learning Faculty, where we are dedicated to fostering the holistic development and independence of our students. At The Marlborough Science Academy we understand that every learner is unique, and we are committed to providing comprehensive support to ensure their success not only academically but also in their social, emotional, and personal well-being.

Our team of experienced SENCo, Deputy SENCo, HLTA and ATs (Assistant Teachers) are here to assist students in navigating their educational journey with confidence and autonomy. Whether it's through personalised learning strategies, social and emotional development programs, or other support services, we aim to empower students to thrive in all aspects of their lives.

Focusing on inclusivity and individualised care, we strive to create a supportive environment where every student feels valued, understood, and encouraged to reach their full potential. By nurturing their independence and self-reliance, we prepare them to confidently face the challenges of today's world and become lifelong learners and contributors to society.

Independence and resilience are paramount for learners with additional needs as they navigate educational environments. These qualities empower individuals to advocate for themselves, adapt to various challenges, and strive for success despite obstacles. Independence fosters self-reliance, enabling learners to take ownership of their learning journey and make informed educational decisions.

Resilience equips students with the ability to bounce back from setbacks, persevere through difficulties, and maintain a positive outlook amidst adversity. By cultivating independence and resilience, learners with additional needs can develop the confidence and skills necessary to overcome barriers, achieve their goals, and thrive in both academic and personal pursuits. Furthermore, these attributes lay the foundation for lifelong learning and empower individuals to participate actively in their communities, fostering inclusivity and promoting equity in education.

Our mantra is This is an Opportunity – not an excuse!

We do not work with a 'label' but with a multi-faceted young person who has numerous strengths that can help them help themselves.

The Specialised Learning Faculty believe that education goes beyond the classroom, and we are dedicated to providing the necessary tools and resources for our students to excel academically, socially, and emotionally. and that this is a journey of growth, discovery, and empowerment as we work together to unlock the limitless potential within every student.
